What is GoGreen Financing?

GoGreen Financing helps homeowners, renters and business owners find participating contractors and approved lenders to make their properties more comfortable and efficient.

The financing programs featured on [GoGreenFinancing.com](https://www.gogreenfinancing.com) are administered by the State of California with support from the state's investor-owned utilities: PG&E[®], SDG&E[®], SCE[®], and SoCalGas[®]*

*Pacific Gas and Electric Company (PG&E[®]), San Diego Gas & Electric Company (SDG&E[®]), Southern California Edison Company (SCE[®]) and Southern California Gas Company (SoCalGas[®]) are not making an offer to lend and have no role in reviewing or approving your financing application. If you and a lender enter into a financing arrangement for energy improvements, that arrangement will be entirely between you and the lender, and PG&E, SDG&E, SCE and SoCalGas shall not be liable for the lender's acts or omissions.
